Dear Mr. Ford:

The Attleboro Public Schools ("APS") is in receipt of your public records request, submitted by email on March 11, 2026 ("the Request"), in which you request the following records:

*Records sufficient to identify each professional development session conducted by the district between July 1, 2021 and the present, including any available structured data fields such as:*

- *session title*
- *session date*
- *presenter or vendor name*
- *school or department involved*
- *professional development hours*
- *cost associated with the session, if tracked*

You submitted this request as a modification to a previous February 18, 2026 request, which APS responded to on March 10, 2026. You appealed APS's response, which appeal remains under review by the Supervisor of Records. APS hereby provides you with this response to the March 11, 2026 request, without waiving any of its rights with respect to the appeal of its March 10, 2026 response.

Please be advised that APS's duty to respond to records requests extends only to public records that are in existence and in the custody of APS, and APS is under no obligation to create records in response to a request. Furthermore, APS is required only to provide records, and is not required to answer questions in response to a public records request. See "A Guide to the Massachusetts Public Records Law," March, 2020, published by the Secretary of the Commonwealth, at p. 40.

## **Response**

APS hereby provides the attached spreadsheet in response to the Request. This spreadsheet is an extract of information from APS's professional development database and includes your requested data fields of: session title, session date, and presenter (listed as "instructor") name. The remaining data fields requested are not options which can be extracted from the system.
